

## Hoover® Constellation™ Canister Vacuum

# FACT SHEET

### TECHNOLOGY:

The latest innovation from Hoover will help you get to those hard-to-reach areas such as stairs and behind furniture, as well as carpets and hard floors as it smoothly floats from room to room – literally! The new Hoover® Constellation™ Canister Vacuum floats on a cushion of air and moves with you, providing powerful cleaning and effortless maneuverability, unlike conventional wheeled canister vacuums that need to be dragged and are difficult to operate in tight situations.

### FEATURES:

Key features of the new Hoover Constellation Canister Vacuum include:

#### Floating Canister

This unique design floats on a cushion of air across carpets and hard-surface floors for seamless maneuverability, including a 12-amp motor that provides maximum power. Made of durable yet lightweight steel construction with a built-in furniture guard, the Hoover Constellation Canister Vacuum protects furniture and walls from scrapes and won't scratch delicate hardwood. Plus, the electric cord measures 26 feet for an extra-long reach.

#### TurboPower™ Nozzle

Get hard-to-reach dirt with powerful agitation that cleans deep down. The deep cleaning turbo power nozzle automatically adjusts to varying carpet thickness, and the nozzle's brush roll constantly lifts dirt and extracts the most deeply embedded pet hair from carpet.

#### HEPA Filter Bag

The HEPA Filter Bag traps 99.98 percent of all particles down to 0.3 microns. It is easy to change and an extra HEPA bag is included.

## **FEATURES:** (continued)

### **Telescoping Wand and Extra Long Crushproof Stretch Hose**

Get hard-to-reach places with up to 19 feet of cleaning reach! Conventional canister vacuums typically provide about ten feet of reach. On the Hoover Constellation Canister Vacuum, the telescoping wand adjusts from 23 inches to 39 inches for comfortable maneuverability and convenient storage, and its crushproof stretch hose expands to easily clean stairs and under low furniture.

### **Deluxe Tool Set**

A complete set of handy tool attachments can be stored either on the canister or the telescoping wand for easy access. The 12-inch hard-floor nozzle is designed with coarse-hair bristles that are tough on dirt but gentle on hard-surfaces. The cleaning accessories also include a utility brush, upholstery brush, and crevice tool.

### **Suction Regulator**

Located on the grip handle, the suction regulator allows for more delicate cleaning of drapes and upholstery using either the utility brush or upholstery brush.

## **Additional Features:**

### **Full 2-Year Warranty**

Covers the entire product.

### **Compact Storage**

Stores with the hose and power cord wrapped neatly around the canister and the hose end attached to the carry handle.

### **Quiet Operation**

Powerful and quiet.

**MODELS:** S3341 and S3345

## **DIMENSIONS:**

Diameter: 14 inches, Height: 14 inches, Weight: 17 lbs.

## **COLORS:**

Pearl Metallic White (S3341)

Stainless Steel (S3345)

## **AVAILABILITY:**

The new Hoover® Constellation™ Canister Vacuum is available now at select retail locations nationwide.

## **PRICE:**

The estimated retail price is approximately \$199.99 to \$279.99.
